1. About the DO Impact project

The **DO Impact** project stands for “Digital and data-driven Opportunities to strengthen the Social Economy Impact” and **aims to support Small and Medium Enterprises (SMEs) and enabling organisations that work on social economy topics and are interested in adopting digital solutions and data-driven models.** The project thesis is that digital emerging and traditional technologies and advanced data management enable new ways of addressing social needs, increase the ability to identify social issues and provide more opportunities to effectively tackle them. Thanks to the pervasive digital technology characteristics, digital transformation and technology innovation might lead to increase the natural scale and impact of social interventions. Contextually, digitalised processes and services can contribute to collect, process and analyse, in a secure and protected manner, data that will contribute to global social economy challenges. Data analysis and valorisation and innovation technologies can generate a wide range of innovative social products and services; increase the productivity of the operations; better address societal and environmental challenges, better anticipate and meet social needs; achieve cost reductions through more personalised services, increase efficiency in the Proximity and Social Economy (PSE) Ecosystem.

It seeks to:

- Enhance awareness about the opportunities for **SE Small and Medium Entities (SMEs) to digitalise their businesses and operations.**
- Encourage key stakeholders across the EU to recognise the role of digitalisation in driving social innovation and sustainability.
- Provide upskilling and re-skilling opportunities to Social Economy (SE) Enabling Organisations and Social Economy SMEs.

The project follows the Social Economy entities' definition in the Social Economy Action Plan (Communication from the Commission 'Building an economy that works for people: an action plan for the social economy', COM (2021)

"The social economy covers entities sharing the following main common principles and features: the primacy of people as well as social and/or environmental purpose over profit, the reinvestment of most of the profits and surpluses to carry out activities in the interest of members/users ("collective interest") or society at large ("general interest") and democratic and/or participatory governance.

Traditionally, the term social economy entities refer to four main types of entities providing goods and services to their members or society at large: cooperatives, mutual benefit societies, associations (including charities), and foundations. They are private entities, independent of public authorities and with specific legal forms. Social enterprises are now generally understood as part of the social economy. Social enterprises operate by providing goods and services for the market in an entrepreneurial and often innovative fashion, having social and/or environmental objectives as the reason for their commercial activity. Profits are mainly reinvested with a view to achieving their societal objective. Their method of organisation and ownership also follow democratic or participatory principles or focus on social

progress. Social enterprises adopt a variety of legal forms depending on the national context."

2. DO Impact's support to organisations working in the Social Economy

2.1. The Capacity Building

The programme is part of the DO Impact Strategy, created to provide Social Economy Enabling Organisations and SMEs with the tools, knowledge, and resources needed to thrive in today's evolving market. They focus on strengthening digital skills, improving data management, and supporting sustainable practices.

The programme is first delivered to organisations that enable SMEs within the PSE ecosystem and then tailored for local SMEs. The methodology ensures we address specific regional needs and priorities.

2.2. The Digital and Data-driven Program

The DO Impact project has design specific and modular Digital and data-driven Programs for boosting capabilities (skills, tools, resources, networks) to accelerate the twin transition in European Social Economy SMEs working in the Proximity and Social Economy. The programme follows a shared methodology focused on local and regional needs and priorities and are organised by an enabling organisation within the country.

The program consists of workshops aimed to re-skill and up-skill the Social Economy SMEs organised at country level. They include different modules, vary on lengths and formats according to the social economy ecosystem of each country represented by the DO Impact partners.

3. DO IMPACT DIESIS DIGITAL DAY - 25/11/2025

As part of the project, 8 events will be organised at European level, open for SMEs and SE EOs, and anyone else that wants to join and learn about a more practical approach towards digitalisation and data usage within the Social Economy.

This document presents the **DO IMPACT OPEN CALL FOR PARTICIPATION TO THE DO IMPACT DIESIS DIGITAL DAY - 25/11/2025**, which is targeted to both **Social Economy SMEs and Enabling Organisations in EU countries as well as SMP countries**, interested in participating to the Digital and Data-Driven program organised in **Brussels, Belgium, on the 25th of November 2025**.

Interested participants can manifest the interest by filling the application form available [here](#).

The application for the financial support will be open until the 3rd of November 2025. Beyond this date, organisations can still register to attend the event (capacity permitting) but will not be considered eligible for financial support.

3.1. What do we offer?

The **DO IMPACT OPEN CALL FOR PARTICIPATION TO THE DO IMPACT DIESIS DIGITAL DAY - 25/11/2025** allows to register to the event and also **apply for Financial Support related to the traveling costs for participating to the event**.

Reimbursement is assured only for organisations attending to the complete agenda of the event.

The event location (Brussels, Belgium) must be farther than 20KM from the applicant's headquarters in order to be eligible for the financial support.

DO Impact has destined 15,000 EUR for supporting in-person participation of PSE enabling organisations and 20,000 EUR for PSE SMEs to take part in the DO Impact Digital programme. This budget will support travel, accommodation and subsistence costs of the entities participating to the event. It could be increased if needed and available.

According to the distance between the city where the organisation is based and the city where the event is being held, each beneficiary can receive up to 1.000,00 EUR in the form of a lump-sum.

Lump sum funding is a fixed payment defined up-front and set out in the agreement that will be signed between the DO Impact project and the beneficiary SME, stating all conditions for funding. The lump sum will be paid upon completion of activities, and no financial reporting is needed.

Criteria

The specific conditions (selection criteria) for receiving financial support include:

- To be a Social Economy SMEs or a Social Economy enabling organisation (check section 3.2.)
- Being established in an eligible country (check section 3.3)
- Not being part of the DO Impact Consortium.
- Be present for the entire duration of the event.
- Comply with all the requests made by the DO Impact project in terms of feedback and follow-up.
- The place of establishment of the selected organisation (headquarters) must be more than 20 kilometres away from the location of the event.

Organisations that are part of DO Impact Consortium are not eligible for the financial support.

Eligible costs

The financial support is meant to cover part or all the costs for participating in the workshop. The eligible costs are exclusively those related to the participation in the workshop: travel, accommodation, and subsistence costs.

Each selected entity can receive up to one thousand euro (1.000,00 euro) from the project for event, according to the conditions expressed below. The table below shows the criteria for calculating the amount of the financial support to be provided in the form of lump-sum. It will be based on the distance and duration of the travel for participating in a specific activity organised by the project.

For **traveling, subsistence and accommodation costs** for participating to the event the lump-sum will be composed according to the following criteria:

Table 1. Cost Categories

DISTANCE ↓ & DURATION →	AVAILABLE BUDGET
LEGAL ADDRESS OF PARTICIPANT ORGANISATION LOCATED BETWEEN 20 KM AND 200 KM FROM BRUSSELS	300 euro
LEGAL ADDRESS OF PARTICIPANT ORGANISATION LOCATED BETWEEN 200 KM AND 1000 KM FROM BRUSSELS	500 euro
LEGAL ADDRESS OF PARTICIPANT ORGANISATION LOCATED MORE THAN 1000 KM AWAY FROM BRUSSELS	1000 euro

When filling the application form, Social Economy organisations will have to declare their headquarter city and the calculations of the distance will be carried out using

the two calculators provided by EU linked to the Commission Decision C (2021) 35, available at the following link:

https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/calculate-unit-costs-eligible-travel-costs_en

The departure will be the city of the legal address of the organisation, and the arrival will be the city in which the event is being held. In case the City name is not found on the link above, an extra check of the distance will be done through google maps. For distances over 400km please use the Flight calculator.

DO Impact consortium has the right to use non-sensitive information relating to the activities, materials and documents received from the beneficiaries for policy, information, communication, dissemination and publicity purposes — during the project implementation and afterwards.
